1620 East 8th Street
Springfield, MO 65802

Dear Sir or Ma'am:

This office recently had a complaint referred to us regarding the possible mishandling of waste oil at your residence at 1820 East 8th Street in Springfield, Missouri.

A cursory inspection on April 21, 1993, disclosed that there was apparently waste oil on the driveway and grass due to spillage or dumping of the oil. Please note that waste oil is a hazardous waste in Missouri and must be properly disposed of. The Waste Oil Rule specifically forbids the disposal of waste oil into the environment.

You should properly handle and properly dispose of any waste oil which you have on hand as well as any generated in the future. Waste oil contaminated soils on site should be disposed of as directed by the Springfield Public Works Department. You can contact Steve Short at 864-2004 for assistance.

Your cooperation in this matter will be appreciated and expected. If you have any questions, please advise.

Sincerely,

SOUTHWEST REGIONAL OFFICE

Charles L. Kroeger
